bio: I am a **Costarrican Multidisciplinary Designer** with over a decade of experience, holding **Bachelor's and Master's degrees in Industrial Design**. My expertise centers on **branding and creative direction**, developed through hands-on practice, continuous education, and dedicated research. My skill set spans **graphic design, 3D modeling & product visualization, motion design, sound design, music production, signage, interior implementations, and video editing**. I have collaborated with **boutique studios and international clients**. Since 2023 I have worked **full-time freelance** and currently serve as **Art Director for OHM, Albany's electronic music and digital arts non-profit**, where I lead branding and creative direction. **Based in Albany, New York.**

experience

Work

(2026–Present) OHM – Art Director - Serving as Art Director for Albany's electronic music and digital arts non-profit foundation. Developed the full OHM brand identity and led all audience-facing communications including social media campaigns, promotional materials, and print design. Launched the inaugural outdoor event (September 27, 2025) showcasing local DJs, producers, VJs, and lighting artists; organized documentary screenings at Alias Coffee focused on electronic music history and culture; and performed as an artist at multiple events. Additional creative direction for website and merchandise creation.

(2014–Present) Raido / Freelance Multidisciplinary Designer - Since 2014 I have run my own brand "Raido" for music production and mastering. Expanded into design services for concurrent freelance clients. Full-time freelancing since 2023. Key projects include logo design for tech startups and design studios in Panama, UI design for video games, branding for media and content creators, and lobby redesign for one of Amazon's buildings in Costa Rica.

(2023–2024) The Publica – Head of Design/Branding - Brand inception and management of a small digital team for a news-media startup.

(2022–2023) Lionbridge – Senior Graphic Designer - Serving Motorola as part of Lionbridge's Global Team. Responsible for designing and creating social media assets. Additionally handled branding work such as packaging for launch kits, career-specific branding, and promotional material logos.

(2018–2021) <elastica> – Multidisciplinary Designer - As part of a team at a boutique design studio in Costa Rica, worked on furniture, signage, and environmental graphics for hospitality and retail spaces. Responsibilities also included graphic design, video editing, photography, and sound design for branding projects, including work for Honda Costa Rica and Marriott Hotels.

Education

(2018) ELISAVA Barcelona School of Design and Engineering (Spain): Master's in Product Design and Development

(2010–2015) Universidad Veritas (Costa Rica): Bachelor's in Industrial Design

Unfortunately, due to the nature of some of these projects (some still in development), they can't be included in the portfolio but can be shown privately.
